

## Clark Forklift Parts

At this time, there are no less than 350,000 Clark forklifts performing globally, and more than 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of lift trucks, with parts covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's recurrent effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck manufacturer across the globe to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and advantageous system of "Lean Production" for its assembly plants and use of resources. This system was developed to acknowledge the most successful method of production facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to develop the efficiency and excellence of their merchandise while minimizing costs. The contemporary value engineering program combines innovative product improvement and offers improved client support and service within the industry.
