

## Hyundai Forklift Parts

Since the year 1985, Hyundai Heavy Industries has been supplying and making many forms of construction tools including: forklifts, excavators, skid steer loaders, and wheel loaders. The heavy industry division operates a very effective product-supply system. This system is driven by zero-tolerance policy, perfect quality control and one of the most advanced automatic production lines.

Led by a group of 477 distributors in 110 nations, construction tools has been launched into the rising markets of Russia, the Middle East, Central and South America, and Africa. Local Hyundai subsidiaries have been established within the United States, India, China and Europe.

The Construction Equipment Division within Hyundai Heavy Industries strives to meet and surpass all their customer's expectations through building dependable and efficient tools and providing outstanding after sales service. Customer support is further maintained by their dedication to deliver service parts in a well timed manner so as to reduce all of their client's "downtime." Hyundai also welcomes buyer feedback so as to project their clients' requirements and market requirements onto product improvement, production and sales policies. Hyundai easily competes with the various leading brands within the industry.

Hyundai Heavy Industries really value all their customers and is truly committed to enhancing all their merchandise and assistance even further. All the firm's managers and employees try to uphold this actuality with the greatest dedication in their merchandise and assistance. Amongst their main ambitions is to help make their customers' business even more successful.
