

Meritor Parts

Meritor is a premier global dealer which is proudly established on a 100 year tradition of quality and service. They specialize in a broad range of modules, integrated systems and components to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage in the global operations. The company values all of their customers and wishes to ensure their success while anticipating their different needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of experienced professionals.

By only hiring future focused workers, Meritor strongly feels these top-caliber people would be able to rapidly adapt to changing environments and demonstrate the performance and commitment needed in order to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their staff various possibilities for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of axles, drivelines, braking and suspension systems utilized for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all around the globe in 19 nations and in 5 different continents.

They have their supplier network that is specially situated to be able to support the development of the business. Every regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each part of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and implement lean techniques.
